- (1) Has hotel registration @ New York, was in April 1942  
 ever turned up? Name Harry Gold (+ A.B.?)  
 (2) H.G. will not appear antsy to A.B.  
 (3) Re relations of A.B. & Mochy - H.G. intends to stay of this until  
 before A.B. shows up on me, then;  
 a. M. told Norma of filing to join H.G., turned on -  
 bitter for old email & full snatching dog on side. I.H. found  
 out that she was with an old woman heavily involved about  
 not doing of money. Only daughter had married.  
 b. Talk about office with idea! Mochy's date had been on there  
 before A.B. left for Phil. - when Mochy was there  
 Mochy told us (because it represented Norma) & could  
 not get back to N.Y. quickly enough. would never go to Phil. with  
 Norma there.  
 c. A.B. would often leave Mochy down to me  
 d. Vampish, selfish bitch returning from Phil. of the  
 Lisa's party in late Oct. 1942. Howard would not show  
 up. Then H.G. surprised to find them something that  
 coming on return from library.

 (2) Oscar - wanted to go on strike & was always in trouble (see H.G. & L.P. & Mochy)  
 (3) Earl - got back dough he put in from when he left. (see H.G. & L.P. & Mochy)  
 (4) Sue - ditched Mochy because of her carryings on with  
 (5) Al - is, he had to go. Fortunately for her, she was a

 was immensely capable & could have been worked in.  
 (a) H. not there on - talked intimately to Al re conduct of business.  
 (b) Holman & Lister - asked for dose of - oriented very  
 (c) Joe Finkel - got tuff about union, then only worked  
 few wks without pay. (this Mochy ditched him because of C.I.)  
 (d) Al & Lister (asked Al to sue Mochy re interfering  
 in conduct of bus.) also objected to Al's conduct of  
 business.  
 (1) (2) B. & L. - running A.B. for \$50,000 later 4/4/42.

① di-mandel horn - are talked her into this.

② Lapidation - at 151 for two or three within fence - then  
all moved in.

③ salt not pd. for mts. - nearly ended this to him (only  
45¢/week), later we needed his car. He worked, H.B.  
got along well with Roly, later well worth time as

mostly S. O. W.

(a) a. C. & Quincy did on the show-off this stuff (W. I. Brown & Jerry Owens from chemistry to physics to world affairs to discussing atomic bomb & mass annihilation before company).

b. A. B. & Quincy ran firm (Brown & Owens were each connected till they were ready to announce this decision); neither A. B. would drive Quincy hard & would compromise the of doing no other this way.

c. A. B. & Quincy divided off company's till - & put on front of work drawing salaries in this last partly through Quincy, but one policy <sup>PH</sup> made, Lewis & Brown (including general) - & others on finance (running C. B. & S. case - black money).

d. Low affair

- (1) meeting in with Quincy @ 151 in July & then August
- (2) Aschill in late June - to work on Viet. Rep.
- (3) Returning from Aschill in Aug. 1946 split to take Quincy to arrive at New York in December. He stayed & worked till Oct. - but with little reason for Naamie (A. H. & till and got to N.Y.) more to work & Viet. Rep.

Notes re A.D.

⑨ That H.B. could not make @ A.D.A. meeting because a C.P. member - "said they wouldn't discuss it." Later Tim & Vietnam letters A.D. only thought of possible discussion to happen as an afterthought - mentioned it in front of Mary & H.B. prior to his going before Ad. jury (place? arriving out to Tokyo?)

⑩ A.D. & H.B. on way of asking question @ airport (A.D.'s question re flight & H.B.'s on ability to answer). Effort to throw A.D. off track (H.B. could prove discussion in A.D.A. @ this time - July 16, 1948) Why I told A.D. all - this proving of H.B.'s disinformation (working till 5:45 AM & often all thru 6 AM miles in a row) without questioned. A.D. trying to get hold on me? Idea of Ad. in early 1948. That I couldn't leave A.D.A. - and had to be together would not questioned again.

⑪ A.D. & Polish scientist I. Ad. to him from A.D.A. going to Poland. H.B.'s record omitted without his permission. Phil would come to talk by the H.B.'s appointment to this side.

d. This. basis long discussion while A.D. surrounded on his theories of downfall of capitalism in U.S. (furnished death threatening H.B. stated their blame to later mind in time at such (also loss of others in lab which I directed). Even re taking H.B. down late at night - would have been easier to wait for bus & leave Franklin letters particularly around

(C) A.D. dictated statements in 1954 and in much of the end of it - he taking up C.P. work. He says he needs to make a point - "I want the hell, does he think he is accomplishing anything by standing on corner & telling D.U.? Tell him to get a job with Roadways or the number - where we can get valuable information on his side with this side - A.D. was on leave from C.P. to do some more work. Probably, plus, A.D. was planning to travel that he was working up on the way to obtaining D.U. backing."

Notes re A.D.

(5) A.D. & H.G. - Early (S.U. W.R.)

1. From very first H.G. advised clearly that A.D. erotic contacts follow to him a pattern of a commitment to some activity. Particularly, was it contacts marked as s.f., Q.D.S. W. A.D. was the first one I had met. H.G. was not so inclined to hear with him and those that something would come out of it. Had anyone followed A.D., anyone of his abnormal character, and so, H.G. would not have made the same mistake again.

2. He later comes on heavily, ready to go, and I find that I am not for him (I found at least). I did not say that reason I was being assigned to handle A.D. was because it was the night I had to in both being intimate - with a del. H. common interests - I might, therefore, decided in straightening him out. Had I, and really, however, how impossible A.D. really was, all contacts with him would have been broken, as that and did definitely discount (on a level two persons) the possibility of dropping him, and I was, in fact, on to the tie on a rest - in my mind - that for about 1/2 being in being with A.D. & P.S. 6 months, I never got around to it - I did engage, however, in top.

(6) Oct. 27 - Oct. 29 - other two (possibly three) times, and H.G. went to downtown @ church?

(7) 1/2 day late, A.D. & H.G. following well

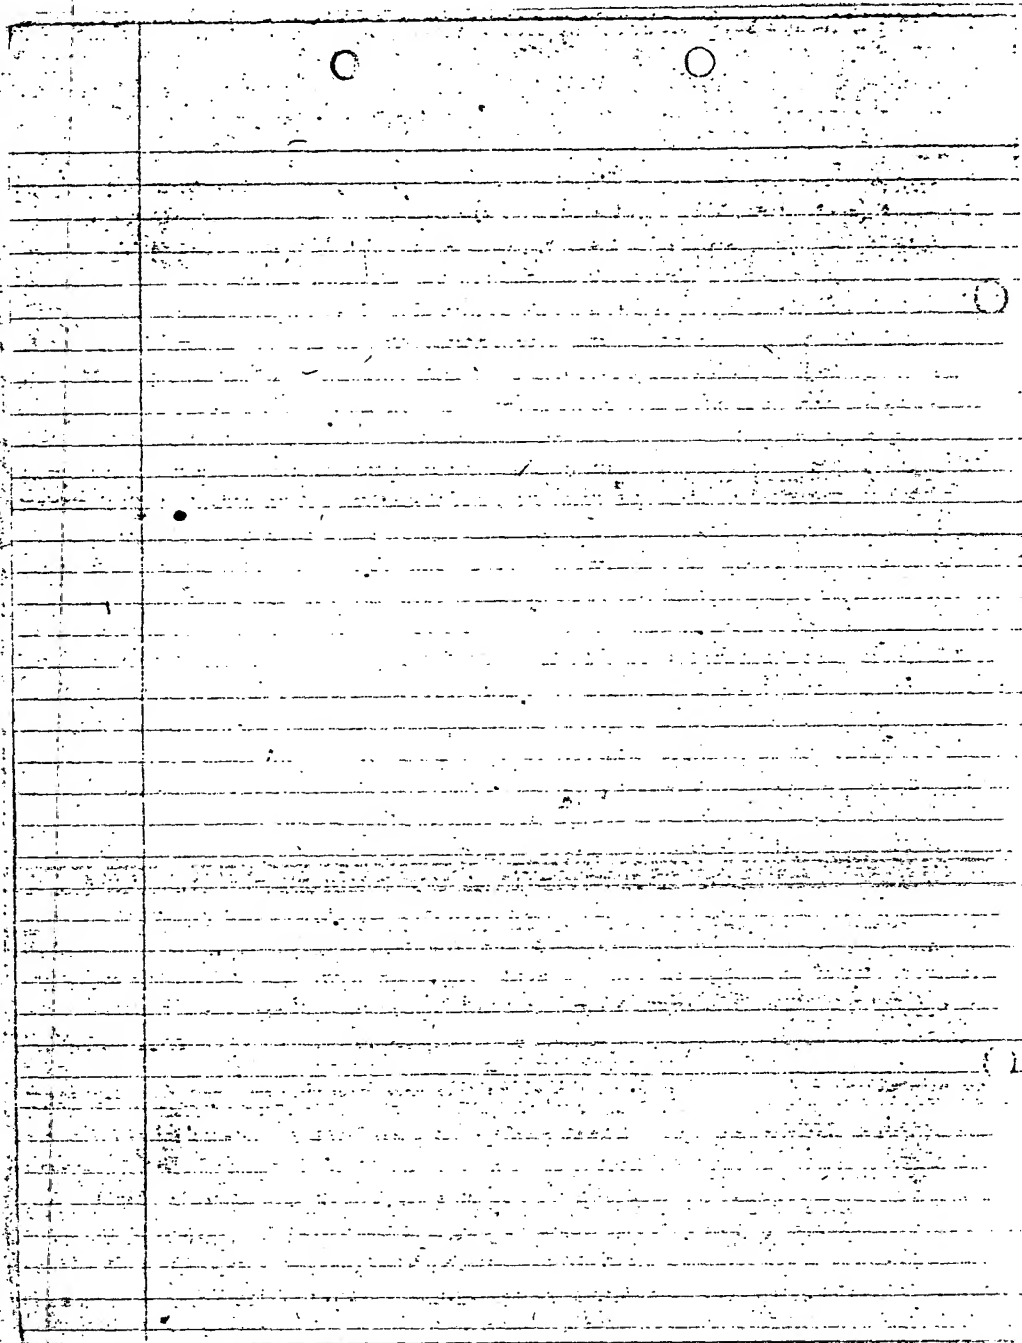

(8) Ray & H.G. church (Hudson River station) & K. H. H. - almost made head on several occasions, and was driving. Why @ Ray & H.G. went for the same - calls, down I got to know after water's voice. P.S. 6 was a good deal - no closer. Later @ church - Ray & H.G. on auto - W. G. & H. G. both - could reach her and @ 4:30 P.M. - Regal came and was, but this time I decided A.D.'s limitations to come and to H.G. (was being with K.F., besides, to be a demonstration not to tell and - I am's previous order - plus fact that I had been present top of him in the past). I have it and I had a further trip in which all that would be accomplished would be nothing to long duration on all in trouble, and I have to not being put upon by his co-workers & business associates.

Notes re A.B.

- (2) Opportunity for idea of "a new frontier" by then, along to make good on this with 1. But would of course be a business.
- (3) Even before this, however, it is a talk re with his field efforts and to an union of Russia by Germany (again some of these against A.E.).
- (4) Also, quite as was ready to deal with A.B. some three months after on Russia - & missing Cpt. (Hendrich stuff) all in rest, no mention of this being A.B.'s own property. Also re H.G. move & several towns, both in early and in late 1944. I had thought A.B. would not be coming to the U.S. until late 1944 (April or Fall) re H.G. move, after June 1944 nothing done on civil Russian (which date on letter).

d. Come down to A.B. re A.E. work in 1945. Not right and honest. Could be mistaken at that. A.B. was always paying to H.G. for funding him off; also H.G. very nervous of any contact with A.B. in 1945 (did not see A.B. from July to years).

(14) A.D. & H.G. - letter (B.A.O.A.)

notes re A.D.

no amount of threats & attempt to move into firm (owner, & do a lot of work & help a real hard & fair) that I just could not leave till I heard the firm was on a solid financial footing.

f. real time I fully intended to do because of:

(1) owner's reputation to my day & night with D.A.S.A. - I never came home exhausted & still did. on driving - driving, even if you look like a washing glass - & a barely artificial one at that.

(2) Fear of C.P. connections of all leading to an honest H.B.

(3) money & all affairs - He thought he could never make it and did N.A. and all I just wanted to get rid of myself for driving - I did not want to be around, I was so worried by it then, now.

9 - A.D. is provider of day contracts: U.S.I., I.C.T. & Longa - Plus selling to N.A. I did not see much work though (in fact it's always thought he could do nothing but by acquiring relations company he was giving up all chance to work any & more at this) and, seeing things D.A.S.A. all this, getting out of A.D. because of "f" about.

A.D. that I would probably not have made full in late May of 1948 (when all of mine was sent to Longa) and all then for mine (and others) created by N.A. and other, even then I still wanted to work for this with in late getting - I & date in order but A.D. called on him & said work on done was changed. Walter Quinck can verify this.

② For U.S. A.D. only:

a - Re A.D. & Frank Kessler alias H.B. (don't know to what the Kessler was to go when going to N.Y. - after now then). A.D. always told I saw F.K. & that I saw H.B. as other as they D.C. associates & Dr. Union member, I told H.B. on date (telegrams) drops; A.D. did not know any more me, or even me, to borrow money, but, to all date with done & connections on them and others. I was not until late May of 1948 (6 to 10 - 1146 - 1148 - 1149), when I told him that I was actually H.B. that he became aware of this fact. I followed him, one week to where I was introduced as F.K.'s.

# Notes Re A.B.

- (1) Artie Walker - He died at beginning in Nov. 1941, then @ chemistry, also only one consumed (Monday 4/23/42) & "It's the hand that shook the hand" and died 7 Feb 1945.
- (2) Henry Holmgren - April 1945 - wife's date at present that Holmgren had been imprisoned with and serving the term about 4 1/2 years in H-14 - & my getting the West Coast. H-14 (from Patrician H-5), plus Holmgren's offer of a job (only had A.D. stationing here, but all three times I asked A.D. he kept mentioning of making overtures.
- (3) Feldman (Zam?) - acting as drop train in chemistry office @ with - He worked as chemist & over the 60 during 40.
- (4) Jennie Ryzicki - did about hand of trying work on about 1940. Had to supply due due to diamond ground. The over this was completed & could displace with her - again H-6 couldn't to complete this work. This work (in Feb) to June (July) 1944.
- (5) D.V.G. associates 4 Bar. witness by H-6 - Feb 1945 - ?
- (6) Sue, Robert, would have a celebration (also Yvonne) - knew of H-6's date of H-6. (and, of course, full knowledge)

2. Re H-6's memory's. did he could come around and with 4 dates with his memories and as:

- (1) He was coming away from H-6's memory about getting from 5th 4 hrs to 6th and 7th by 3rd and ending at Tennessee Power Plant - A.D. N. 1, came - & during buying H-6 drinks afterward; plus during H-6 to all 3rd party (something coming to take material to be distributed - or that it could be returned a few hrs later); plus winning down at 4th and 5th during down on to his walking and a then sitting up to him @ 14th St. (two drinks getting lost in downtown N.Y. - H-6 debate about let me. during).

Notes re A.D.

- (4) Jan 1, 1948. New Year day & meeting attended closed & show Pass - planning, etc to look for sign of life. Later A.D. during Hb app. checked this thing along Hudson River. At same time, 1948.
- (5) Jan 10, 1948. (at A.D. meeting) re meeting date in Oct 1948 (cold - for this meeting, clear, with) & American Feb 1948. during same or after New Year, 1948.
- (6) Today in a desk at A.D. incident reaction at incidents of Camp Hill River, Albany & Co., late from Albany fully 1948.
- (7) To all of above there must have been an overall reaction & amount of time on part of Hb. re A.D. is arbitrary, but based on utterly selfish conduct - to others as well as Hb. plus an incident such as A.D. proposed trip to Canada 7.2 miles from N.Y. for purpose of meeting on same & road. A.D. has been re friends at home & during with C.D. since Feb 1948.
- (8) re completing same & next date since 1948 - just before Hb. is scheduled induction into Army - April 25, 1948.

C. re meeting date - all Hendrick's newspapers, blueprints, technical data & literature for various chemical and industrial - to early 1948. Hendrick got requests from S.H. for further info. on a certain travel. Hendrick - to be agitated & A.D. could not get it (after putting it off) saying that it was in Hendrick's office - not mention in 1948 or 1948 body of Hendrick report about that being a note effort by A.D.; Hendrick & C.D. would not have liked this (in fact, they would have taken any hide off) and it has been merely A.D. to created. Based on all conversation from Hb. to Hendrick shall plus idea of assistance on a project already in operation as opposed to one which was on the nature of an innovation (or was, just in the early stage); plus frequent desire to communicate A.D.'s own work - they wanted Hendrick, C.D. & S.D. involved only. Also, Hendrick's later meeting with A.D. & Hb. (Hendrick & Hb. recently arrived association & official from S.H. - but actually due to meet A.D.; other purposes of the trip only accidental); two or three frequent statements by Hendrick who are drawn (will) & etc (Hendrick's) re A.D. & A.D. is affair deal - taking of Hb. You had provided any kind of name and like & that would be the Hendrick's work.

d. A.D. is describing efforts in H. H. House. June 1946. Reunion  
 mentioned @ during the 1st part of presentation provided they present  
 matters to him, plus anything demonstrated of same such as the  
 Reunion Roommen: "small group men to whom we assigned  
 their activities, and avoiding attention to them directly &  
 indirectly they were treated respectfully by high army & naval  
 officials, given priority in planes & railroads, & best of all  
 had their salaries raised from \$4000/year to \$6000, and this  
 was followed by an incredibly attended public's parade in the  
 Reunion (early July 1946) & also unobscured all pictures &  
 pictures of apparently unharmed & quite contentedly appearing  
 on deck of a an anti-air cruiser, one of the targets.

e. A.D. - K.F. - incident - April 1947, while going to  
 Peachhill with A.D. & working in A.D.'s car. Purpose A.D.'s effort  
 with working for similar purpose, to work on A.D.'s project  
 - Patent office for workman. Incident of A.D. is incredibly  
 French's mind. A.D.'s violent move for K.F. person.

f. Re A.D. & K.F. story - August 1946 - Re French's being attended in  
 England. H.B. believed it was true & later related it to both H.B.  
 & Arthur man. Perhaps relief under of A.D. & was of value & that  
 K.F. was well & had given a few more to previous been in contact  
 with H.B. & sent in Partisan. Whole function probably part of A.D.'s  
 paying into H.B.'s affairs as as to all said & was done - and I feel  
 for all, too.

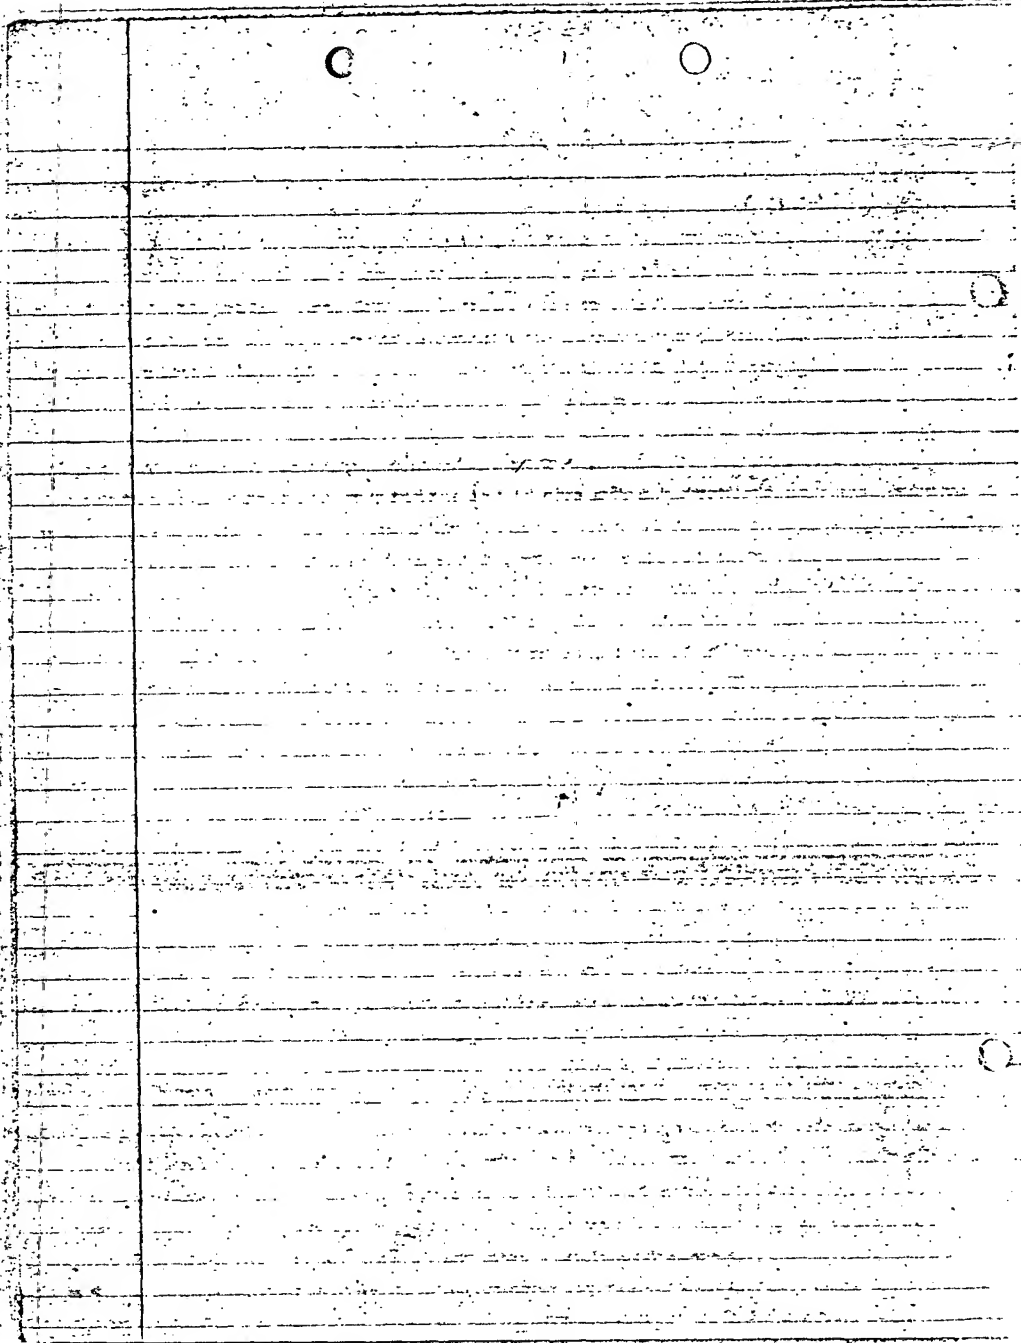

See French's  
 (end of July).

g. A.D. converted idea of Reunion changed to (idea as originally  
 not working for Reunion but was promoter of Reunion  
 Club - H.B. had desired great reunion, all different, of  
 Charles Delaney? & Martin & Seattle and others) & first told H.B.  
 of this at Peachhill house after the reunion day.

h. Why I kept stuff of A.D.

- (1) For a moment & it is likely H.B. did off
- (2) Father in the H. Hall (and of invitation to agents to turn  
 for it), a suitable arrangement of material - took 6 men  
 several days to locate more in all. Part of H.B. effort @  
 observation, all memory of depression work.

## ① Episode of discussion w. S. Berlin

- a. H.B. going to Technical Library in N.Y.C. - Engineering Club or N.Y. Public Library - time 3 P.M., had got as far as I could & going lab. & needed to consult chemical literature. I drop piece of memorial bag 1.9.47. Had tried to call ADA office in L.A. City but had got busy signal. I turned off all of hell to all of there was anything further that I'd wanted and to look up, plus fact that I wanted to tell him about work over on engineering.
- b. only Col. Farnell as I was / working at the office - middle of ad. - "disposition." Did I know that that man was with A.D. "That I did had to do with Internal Memo."
- c. A.D. in Office - came to meet H.B. & took him by arm, personally & working. Consultation.

- (1) A.D. "I did not" was still there. They know everything; they know all about me. Look. They know you well & consider <sup>H.P.</sup> they can draw pictures of you & I together. Look Harry, you've got to look out for yourself. I'm coming to all you that of them. <sup>did</sup> looking, you know, John?

- (2) H.B. "no, I never actually spoke to him."

- (3) A.D. "Well any how, you've got to say you did to back up my story; both now I told them and I." A.D.'s description of John Colless (aid) is: Residing forward, curly hair, whiskered face, very thin. My story gave a picture of him. "make up a story, change story at all & tell them that all with you & I. You and me both, you do, don't admit saying any statements to me to back up my story."

- (4) "my story is on my side to. I didn't move with the car. I never saw anything around. Don't let me to admit that we spent together. I promised them I would drop it in touch with you."

- d. H.B. returning to A.D. & looks. Chamberlain. Can contact story in my (on, formation library here).

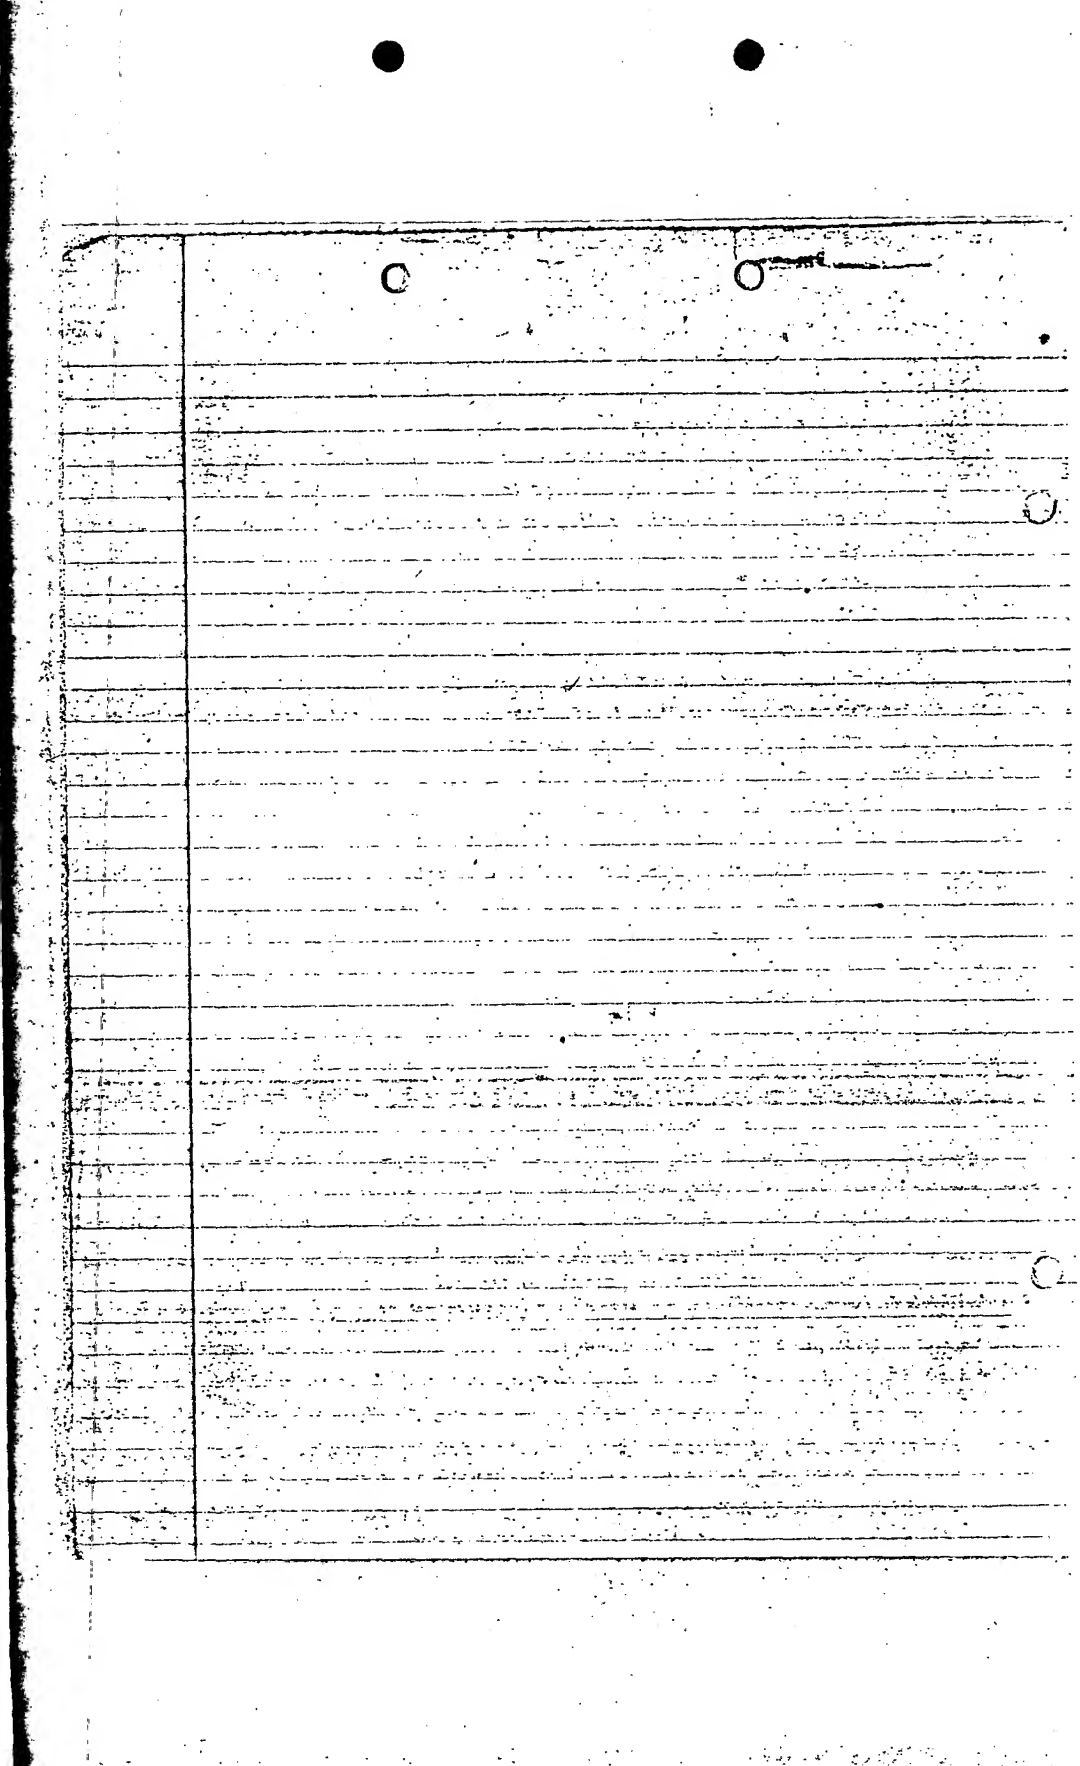

- e. C. to S. of Chamberlain & S. Berlin. Looking right at me but I was not all around lab. & Chamberlain asked - "Is now Harry's side?" & they were happy and, never said any pictures of me & I together, & I had never heard of me till all of them my name - to take the deal off himself.

(44) L.H.B. - H.G. hardly glanced at - was busy at  
end of trying to clean up work in case  
I was arrested - just in @ P.G.H. & beside  
it did not deal with my activities,  
just with A.B.

(45) & capture - mostly done @ 11 A.M. - limited  
time taken there, see (46)

NOTES

(46) A.K.: re 2 cgt - per Ording said to

& 1,000 gal.  
"many  
water  
cooled"

(52) A.K.: re h.p. @ home - Feeling of guilt;  
R.C. attempt to obliterate all memory;  
Know I was  
committing a  
crime  
But that's that and justified  
the means.

(53) Re A & Pop - remained there from 1915 to 1946  
- except for lay-offs.

(54) Entered course in chem. @ U. of P. (Toward  
scientific work) @ research directors urging.

(55) With advent of NKA my old job @ P.D. was  
no longer available - & I went there glad to be home

# Notes

(56) A.K.: Re and any incidents: O you asked, why don't you let me tell the story?

(57) Paul - Ind. Colvents used in manifest & formation of lacquers & varnishes

- 3) He looks tired (with a little bit)  
 39) He's tired by his situation - 4 H rowers & many 4th job  
 on 1st day of job @ Miller Navy Yard - all I had to do  
 was tell him - But was taken in by a story  
 of a 4th job - and he said he'd go to the command  
 and he would not undertake job without me.  
 that was a physical & a verbal challenge.  
 41) '44 & 44' - He's for too busy - especially with full time  
 job & with a woman - to worry about seeing me  
 during these yrs.  
 42) He's a bit of a liability from a security point of view  
 and 44 & 44  
 number of 44 & 44

Defendant's Exhibit N  
Design of a Urea Resin Plant

1. The material contained in this article is in the nature of straightforward chemical engineering calculations — and of a very elementary kind at that.
2. The reasons for the choice of certain materials for bearing, stuffing-boxes and other features of design may constitute some feature of novelty — but it seems to me that these are part of the daily problems encountered by design men.
3. There are hundreds of resins (as a generic name for commercial high-molecular weight materials = plastics) but the Synovar blue print has absolutely no specification on it as to what resin it is proposed to manufacture in the equipment.
4. I do not see how one could have designed a urea resin plant for plywood in 1941 when, in 1946, he had to substitute an American Cyanamid resin (in place of the one that Tang and Wan had seen demonstrated in Abe's lab) for submission to the U.S. Testing Laboratories in Hoboken. This was just before I came to New York, when the Chinese tried the process in 1947 in their own lab.

Defendant's Exhibit H

Batch-continuous Process for Buna-S

1. Lists of various pieces of equipment are not given here — but they are on the blue prints.
2. Some of the details of the process are given in this article but not to the full extent described in Abe's report which I saw on the stand — and not to the full extent given in the report which I handed to Sam.

3. In general one can say that the technique for the manufacture of Buna-S has been described in this article, and some of the problems and the features of the design of individual items of equipment have been discussed, but no chemical manufacturer would ever set up a plant with only this report in front of him; he would want:

a. Complete operating data

b. The general layout of the plant as applied to his building — or to one he was proposing to construct.

c. The design details of each individual piece of equipment.

d. A demonstration in either a pilot (small scale) plant or an opportunity to work for several months (say) in a plant already in successful operation — so he could see for himself.

e. A report on the

General comments

all these exhibits H and N there are plus for other brother's publications and for his theories on the design of milling equipment. All of these articles appeared in the same 1944 publications - of Chem & Met. I know this; In general there are many articles published in it which are intended for self-advertisement. Its Am. Chem. Society Counterpart, Industrial and Engineering Chemistry, is far more fully about the sort of articles they publish and in general the work appearing in I and E. C. is of a higher scientific caliber and the data is more fundamental in nature.

One person submitted an article to I and E. C. but he had a quarrel with the editor & I do not believe it was ever published.

The first paragraph represents what may be a very controversial matter, but I'll be dramatic and say that I "know" I'm correct in my general opinion.

③

The articles on mixing equipment

1. The article dated May 1945

a. Al received a letter from a South American (Peruvian, Bolivian?) chemical engineer praising him for the equations & relating that the writer had tried certain of them out & had got marvellous results. Timothy 1948

b. Al spoke at a symposium held at the University of Penna. The director of this get-together was a man called Moletad - he's still at the U. of P. at this meeting Al was severely criticized for his visionary theories.

c. Dave Buslik told me that he had tried several of Al's equations & they had not worked at all - without any prompting from me, he characterized Al as a "con man" - and said that the article on mixing had that desperation air of trying to sell something. Dave also told me that he had spoken to a prominent chemical engineer at DuPont and the latter had said that the DuPont organization had encountered some sad experiences in trying to apply Al's formulae to practical problems.

d. The autone reactor described in this article never worked - Al had to get a U.S. Intelligence report from Wallington & had to use mine

misc oxide well, & the exact conditions as specified in the report before we could demonstrate a satisfactory yield. Before this Rob Nelson had worked for two or three months with only <sup>5%</sup> 10-15% yields to show for his efforts. Using the German data I obtained about an 80% yield. Rob had searched the literature & had obtained articles from all sources reporting the alleged successful operation of such plants - none of these methods worked; possibly the articles, including Canadian & Russian work, were deliberately misleading. I do know toward the very end Tang was becoming convinced that a process for the production of acrolein from acetylene was just not commercially feasible.

2. To me a mathematical approach to the problem of milling seems a very logical one & I know it also appealed to Sam.

Exhibit 11

The details of the construction of this  
piece of equipment could have been  
arrived at by any competent de-  
sign engineer.

1. In general the Soviet exhibit treats of the same subject as Defendants Exhibit. I, i.e., the application of mathematics to the design of mixing equipment; the same approach to the subject of mixing is also used in some of the Defendants' other articles.

I. SIGNED STATEMENT OF HARRY GOLD:

HARRY GOLD was interviewed by Special Agent ROBERT G. JENSEN, Philadelphia Field Division, and the writer, on May 13, 14, and 15, 1952, at the United States Penitentiary, Lewisburg, Pennsylvania, where he is now serving a thirty year sentence for Espionage, imposed on December 9, 1950, by the Honorable JAMES McGRANERY in the United States District Court, Philadelphia, Pennsylvania.

GOLD, who has an amazing faculty for detailed recollection and who could, on cross examination, give testimony of convincing nature regarding the positiveness of his recollections, furnished the following signed statement:

"May 15, 1952  
Lewisburg, Pa.

"I, HARRY GOLD, do make the following voluntary statement to CARL A. BETSCH and ROBERT G. JENSEN. These men have identified themselves to me as Special Agents of the Federal Bureau of Investigation. I have been told and know that I am not required to give or make any statements. I also know that any statements I make may be used against me in a court of law. I have been told and know that I am entitled to benefit of counsel.

"These men have asked that this statement cover my present recollection of the matters set forth hereinafter. I have carefully reviewed these events in my mind, and can testify, if called upon to do so, as follows:

"Beginning in late 1935, I began to serve as an active Soviet espionage agent in that I took industrial information from my place of employment, the Pennsylvania Sugar Company, Philadelphia, Pa. and gave this information to my Soviet espionage superior. I continued in this task of transmitting information taken from my place of employment until the Spring of 1938.

"At this time I was being handled by my third Soviet superior, a man I knew as FRED. FRED was quite persistent in his attitudes towards me in that he continually pressed me for industrial

CIN. 65-1724  
CAB:CMC

information. He also asked me to seek other types of employment, for I had delivered by this time most of the information of industrial value at my place of employment. I can also recall that he (FRED) asked me on many occasions to submit biographical sketches on people that I considered possible recruits for Soviet espionage. I know that I submitted to FRED some biographical sketches on non-existent people in order to allay the persistent hounding he was giving me.

"However, in or around April of 1938, I told FRED of my desire to go back to school to complete my education. FRED objected to this idea of mine stating something to the effect that my contacts with the industrial world would be broken off.

"In a later meeting with FRED in late July or August of 1938, somewhere within a two week period around the LOU AMBERS-HENRY ARMSTRONG fight of that year, FRED told me he wanted me to go to college. I recall this meeting quite clearly. FRED called me by phone at my home in Philadelphia and asked me to come to New York City immediately. The night was a rainy one and rather miserable. FRED bawled me out for not producing contacts for him or additional information. After this bawling out, FRED told me that things would change for the better and he now wanted me to go to college.

"He told me 'there is a government official located in the midwest' from whom I was to get information. FRED said this particular setup required my attending the University of Cincinnati. He was very specific about my attending the University of Cincinnati. He told me that there would be plenty of funds available for my education.

"I would like to state that prior to FRED's change of attitude and wish to have me attend the University of Cincinnati, FRED wanted me to go to the Massachusetts Institute of Technology. This I declined to do for various reasons, principally, that I could not account to my family for the funds that would permit me to enroll at M.I.T.

"I was unable to enroll at the University of Cincinnati under the conditions I had hoped for. The University of Cincinnati would not give me credit for the courses I had taken in Evening

CIN. 65-1724  
CAB:CMC

School at the Drexel Institute of Technology. I was also told that the credits I had earned at the University of Pennsylvania were not acceptable. I further did not want to take the six year cooperative course as offered to me by the University of Cincinnati.

"At the suggestion of a co-employee at the Pennsylvania Sugar Company, I did enroll at Xavier University in Cincinnati, Ohio in September, 1938. This co-employee had no knowledge of my espionage activity at that time nor did he have knowledge of my true purpose in wanting to go to school in Cincinnati.

"After my enrollment at Xavier University, there was a series of meetings with FRED. One of these meetings was held in New York City and another two meetings were held in Cincinnati. At none of these meetings was the purpose for which I moved to Cincinnati discussed. I believe FRED at one of these meetings told me to get established first and we would discuss the purpose of my going to Cincinnati later.

"On Thanksgiving day of 1938, I received a telephone call at my rooming house. This call was from FRED. He asked me to come downtown immediately. I explained to him I was not dressed and my rooming house was almost an hour's bus ride from downtown Cincinnati. I went downtown and met with FRED. He told me at this time I was now to follow out the purpose for which I had been placed in Cincinnati, Ohio. I was told to go to Dayton, Ohio, by FRED who said I was to resume contact which an Agent, STAN, had once had with BEN SMILG, an aeronautical engineer at Wright Field."

"I suggested to FRED that I go to Dayton, Ohio, on the following Saturday. I did not so state, but I had planned to attend the Xavier-Toledo football game and to accept my landlady's invitation to Thanksgiving dinner that day.

"FRED said 'No, you have to go this afternoon, the man is waiting.' I walked with FRED to the Union Station at which place he gave me the address of BEN SMILG in Dayton, Ohio. I can not recall whether he gave me this address in writing or whether I wrote it down at his request. I no longer have the slip of paper upon which the address was written but I recall the address as 307 Oxford Street.

CIN. 65-1724  
CAB:CMC

"FRED also gave me a letter and a white box containing a new leather wallet wrapped in tissue paper. He identified the letter as one from STAN which I should give to SMILG as a recognition signal. FRED said the wallet would serve as a gesture of friendship to SMILG.

"He put me on a train for Dayton, Ohio, that afternoon and I arrived there about one hour or so after leaving Cincinnati. I took a taxi to the SMILG residence on Oxford Street as this was the first time I had ever been there. This was about 4:30 or 5:00 PM.

"I knocked at the door of 307 Oxford Street and a man answered it. I said 'I've come to see Mr. BEN SMILG.' The man said 'I'm BEN SMILG.' I said 'Oh, fine,' and started to walk by SMILG, who was still partially blocking the doorway. I then said, 'I come from STAN' or 'I bring greetings from STAN.' SMILG then said 'Oh' or 'Oh yes' and invited me in.

"The door opened directly into the parlor where I gave SMILG the letter and the wallet and told him my name was HARRY GOLD. There was here present, SMILG's parents, an elderly couple who were friends of the SMILG family, and another family friend, a man who worked at Wright Field. DAVID SMILG, a younger brother of BEN, entered the parlor a short time later. BEN told his parents, 'This is HARRY GOLD, a friend of STAN's.'

"BEN's parents were pleased over the news of STAN and asked me how STAN was and what he was doing. I said that STAN was fine and turned the conversation to another subject. I did not know STAN and FRED had told me nothing about him.

"I had read the letter before I had given it to SMILG. It was a simple letter of introduction with the request that BEN do what he could for the bearer. The letter was signed merely 'STAN.'

"I also remember I was somewhat ashamed of the appearance of the white box which contained the wallet. I stopped in the men's washroom in the railroad station at Dayton and tried to clean it up a bit with an eraser. I also rearranged the tissue in which the wallet was wrapped. I noticed nothing else in the box or the wallet. This I did before I went by taxi to the SMILG residence.

CIN. 65-1724  
CAB:CMC

"The wallet was a long, narrow, wafer thin, fold over leather wallet. SMILG's father admired the wallet very much. I judged from his remarks that he had been in the leather goods business or had a professional knowledge of leather.

"I sat and waited for BEN SMILG to take me someplace as I had expected him to be awaiting my contact for espionage purposes. It was obvious that we could not talk in the parlor with the other people present. BEN made no move of any kind. I felt I had to say something so I said I lived in the East.

"The guests of the SMILG family left and a neighbor came in for a short time. I started talking about going back to Cincinnati that night and finally BEN's father suggested that BEN drive me to the bus station.

"BEN drove me alone to downtown Dayton and stopped at a park near the bus station. I here said to BEN 'now that we are here alone we can talk more freely.' BEN made no response. I said 'STAN said you and I would be good friends.' BEN mumbled something in reply. I gave him my Cincinnati address and the phone number of my landlady, Mrs. ALIS BROOKS. BEN held the paper with this information on it as though he did not want it. BEN said 'Are you working there.' I said, 'No, I am going to school. I will be there two years and will be available to you at all times.' BEN froze up completely and I got upset. I told SMILG I would get in touch with him again. SMILG made no reply and he seemed glad I was leaving. I left the car, walked to the bus station, and caught a bus for Cincinnati. In Cincinnati, I had a late supper about 9:30 P.M. at Shevlin's in Cincinnati.

"The following Sunday, I kept a prearranged meeting with FRED in Middletown, Ohio, at the railroad station. FRED and I walked around town in the vicinity of the railroad station. I had lunch with FRED in the same general area. In reply to FRED, I told him that I had been to see SMILG, but I didn't think we had the right man for I didn't think SMILG knew what I had come for. I told FRED I thought something was seriously wrong.

"FRED told me I was wrong and that SMILG was showing commendable caution. He said everything was fully arranged and I need merely to get into the good graces of SMILG and obtain his confidence. SMILG would then give me information as he had STAN.

CIN. 65-1724  
CAB:CMC

"I said I was not going back to SMILG. FRED threatened me by saying he would send a letter exposing me to the 'good Fathers at Xavier University' if I did not comply with his instructions.

"I took the bus from Middletown, Ohio, and returned to Cincinnati.

"My next contact with SMILG was before the Christmas holiday of 1938 at SMILG's home in Dayton. I learned from BEN of his planned trip to Philadelphia, New York City and Boston. I told BEN I lived in Philadelphia and would be there myself over the holidays. I carefully printed out my home address and phone number in Philadelphia and gave it to SMILG. I asked him to be sure to look me up on his trip East. SMILG appeared more cordial to me and I felt FRED had been right after all. SMILG again drove me downtown to an area near the bus station.

"I met with FRED in New York City during the Christmas season of 1938. FRED told me it was likely that SMILG would now hand over information at our next meeting or at least prepare a set up for the transfer of information.

"In January of 1939, I made a telephone call to SMILG's home from a phone booth in Dayton, Ohio. I believe DAVID SMILG answered and after talking with someone in the background, told me that BEN would not return home until late that night.

"I went to Dayton a couple of days later and saw BEN in presence of his family at their home. I asked BEN why he hadn't gotten in touch with me while he was in Philadelphia. BEN said he had had an automobile accident while enroute near Lancaster, Pennsylvania. BEN said he had had a narrow escape with his life and his companion, a male, needed hospitalization from the accident. He showed me a picture of the damaged car and said he had not gone through Philadelphia because of the accident. I tried to wait the family out so I could talk to BEN alone. He gave me no opportunity for this and I left the house by myself. I told BEN I would get in touch with him again.

"I met with SMILG again in March of 1939. I arrived at the SMILG home unannounced about supper time. SMILG invited me to

CIN. 65-1724

attend a lecture somewhere in Dayton. The lecturer was LUDWIG LEWISOHN, who was speaking on Zionist problems. His lecture was impressed in my memory as LEWISOHN, in the course of his speech, made sharp and even insulting remarks relative to Christians. SMILG and I commented about such remarks in view of the large number of Christians in the audience. A friend of SMILG's, name not recalled, who was a ham radio operator, went with us to this lecture.

"After this lecture pledges were solicited for the Zionist movement. I signed a pledge for \$5.00 giving my name and Cincinnati address. I gave this pledge to a plump Jewess who was a friend of BEN. I never received any bill and never paid the pledge.

"I met with FRED in April of 1939 near the Netherlands Plaza Hotel in Cincinnati, Ohio. I told FRED we should do something to get this thing with SMILG started. FRED suggested I talk to SMILG of the benefit to the Jews in aiding the Soviet Union.

"I met with SMILG again at his home in Dayton shortly after my meeting with FRED. I do not remember being specific with SMILG at this time. I do not think I brought up the points suggested by FRED when I talked with SMILG. I can recall only that nothing of value resulted from this contact.

"After examinations in June of 1939 I saw SMILG again at his home in Dayton. I propositioned SMILG in rather a weak fashion on this occasion. I also told BEN that the Soviet Union was a great bulwark in the fight against Fascism and needed help in this fight. SMILG evaded the subject I was trying to bring up.

"At one of my meetings with FRED right around this time, FRED said that I perhaps did not appear reliable to SMILG because of my youth and apparent immaturity. FRED told me again to establish a close personal relationship with SMILG and impress him with my mature viewpoints. I was told by FRED to enroll for summer school so that I could stay in the area and cultivate SMILG.

"I now remember I did not go home after summer school was finished in the first week of August 1939 because I hadn't seen SMILG yet. I went to Dayton, Ohio and on this meeting I gave SMILG a

CIN. 65-1724

second letter from STAN, which FRED had given to me. I believe the contents of this letter were to the effect that BEN should give to me the same type of information he gave to STAN in the past. FRED told me to get the letter back from SMILG. SMILG took the letter from me while we were in the house and walked upstairs.

"I heard the toilet run and BEN came back down. BEN said 'You don't know what you are getting into, be careful.' BEN was tense and agitated and I became frightened. I left alone without the letter. I felt I needed a few drinks which I had at a bar across the street from the Biltmore Hotel in Dayton. I felt too upset to go back to Cincinnati that night. I stayed overnight in Dayton in what I now recall was the Hotel Gibbons, returning to Cincinnati the following morning.

"I think I saw SMILG again in October and again in December of 1939. I can't recall what transpired. I remember I was ill at ease with BEN and had a natural reticence about seeing him in this period.

"I know I must have seen FRED again sometime during this period but can not recall when, where, in Cincinnati, or how many times.

"I next saw SMILG in January of 1940. I fix this date by remembering I boasted of the glorious Soviet Union. SMILG scoffed at this for the Red Army was then bogged down in the Finnish War. I did not proposition SMILG at this time.

"From January until March of 1940, I did not see FRED. In March I met with FRED and he told me to proposition SMILG very plainly at my next meeting. FRED told me to ask SMILG directly for information. FRED also told me to prepare a letter using the phrase that I was successful or unsuccessful in selling my car to indicate success or lack of it in dealing with SMILG. This letter I was to mail to an address in Brooklyn, New York.

"I met with SMILG at his home in March, 1940, at Dayton, shortly after my meeting with FRED in Cincinnati. I complied with the instructions given me by FRED and asked SMILG specifically for information. I believe I asked SMILG for any technical data

CIN. 65-1724

about production or performance of any aircraft engine as produced by the military. I also told him that the information did not have to be drawings or blueprints. SMILG said 'You don't know what you are fooling with, you better get out as soon as possible.' SMILG was agitated and somewhat tense at this meeting but did not agree to furnish me information.

"I left SMILG in Dayton (this was on a weekday and in the evening) and returned to Cincinnati. I composed the letter I had been asked to write, showing my lack of success with SMILG.

"In late April of 1940 I got a call long distance from FRED telling me to come to New York City. I was given details of how to meet my next Soviet espionage superior, JACK.

"I met this new Soviet espionage superior in the lobby of the Hotel New Yorker as instructed. This new contact asked about SMILG. I told him that SMILG had rejected me. JACK then said something to the effect that SMILG would come around and I should visit SMILG again. I stayed at the Hotel New Yorker that night and left for Cincinnati the following afternoon.

"I phoned SMILG at Dayton from Cincinnati as soon as my examinations in June of 1940 were over. He seemed more cordial than in the past. This surprised me and because of this I well remember the call.

"I went to Dayton right after this call to see SMILG. I met him at home and we took a walk together in his neighborhood. I told SMILG I was leaving Cincinnati to go back East to work. I told him I could set up a system whereby I could meet him anywhere he wanted. I used the towns of Cleveland and Indianapolis as examples. I said the transfer of information from him to me would only take a minute and that within a matter of a few minutes later someone else would pick up the information from me. I further told SMILG that if he preferred, I could have someone else contact him to get this information. I also made the proposition of payment of money to BEN as well as the possibility of sending his brother DAVE to Massachusetts Institute of Technology.

CIN. 65-1724  
CAB:CMC

"SMILG told me I did not know the extent of military intelligence to counteract efforts to obtain information. SMILG said, 'For all you know, you may have been watched from the very beginning of the time you first came to my house.' I told him there was no indication of such.

"SMILG then told me he knew of a case where an engineer in his office was taken away by two intelligence officers and had never been seen again. I was told by SMILG I didn't realize what I was letting myself in for and that I had best get out of it. I told SMILG I was nearly 30 years old, that I had been out in industry, had met people, did understand what I was doing and thought it was a good thing.

"SMILG was outwardly upset, but solicitous in the nature and manner of his remarks to me.

"I returned that night to Cincinnati and left shortly thereafter for my home in Philadelphia, Pa.

"In July of 1940, I was taken over by a new Soviet espionage superior, named SAM. SMILG was mentioned casually by SAM in the summer of 1940. I was told to go to Cincinnati and renew acquaintances with SMILG. In October of 1940, I was supposed to go to meet with SMILG but actually I never went. I prepared a false report on this trip and gave it to SAM.

"Shortly before Christmas of 1940, or right after New Years day of 1941, I went to Cincinnati. I arrived there on a Saturday and on the following Sunday, I went to Dayton to see SMILG. I told SMILG of going to Wisconsin on business for my firm. I told him I was to see Doctors SNELL and STRONG at the University of Wisconsin on microbiological assays.

"I did not come right out with a proposition to SMILG but said something about STAN being anxious to see him and hoping to see him soon. I got no response from SMILG. I then told SMILG that STAN was most anxious that he furnish me information from Wright Field in accordance with the talks that SMILG and I had had in the Spring of 1940.

CIN. 65-1724  
CAB:CMC

"SMILG told me I was totally mis-informed as to the relationship between STAN and himself.

"Prior to SMILG's telling me that I was mis-informed about his relationship with STAN, I also told SMILG that he had given information to STAN in the past. I told SMILG he was to give me information in accordance with the manner in which he had furnished information to STAN. I also asked SMILG if 'STAN hadn't given him money for this information. SMILG told me he had never given STAN any information and he had never received any money from STAN. SMILG said the relationship between he and STAN was that they had been friends at M I T and he had tutored STAN there.

"I left SMILG in Dayton with the statement that I would be back on business and would see him again. I returned to Cincinnati by bus and met with SAM near the Hotel Gibson on the north side of Fountain Square. During my meeting with SAM I gave him an account of what had transpired at my meeting with SMILG. I left SAM in Cincinnati and returned to Philadelphia by plane.

"A few days after my return to Philadelphia, I took a written report on my last contact with SMILG to SAM in New York City.

"I saw SAM in New York City a few days later as planned. At this time SAM said 'That "once and for all, we are going to pin SMILG down and make him come across with information. We are going to show him right to his face where he is lying.'" SAM said this would be done by means of copies of actual reports that BEN had furnished plus receipts for money which BEN had taken.' SAM also said the originals were not presently in New York City but photocopies were being made and had been sent for.

"SAM and I arranged to meet and did meet on a Saturday in early February, 1961, in New York City. SAM, at this meeting, gave me a brown envelope, which he said contained copies of several reports BEN had written, plus copies of several receipts for money.

"SAM told me I had to leave immediately for Cincinnati, Ohio, over my protestations that I had promised to be home that evening. SAM even took me into the lobby of the Hotel Edison and made reservations for a plane leaving that evening for Cincinnati on American Airlines.

CIN. 65-1724  
CAB:CMC

"I took the plane alone, and arrived at Cincinnati, Ohio late that evening. I registered at the Hotel Gibson and before going to bed met by chance a classmate of mine at Xavier University, one DICK SCHMITT, in the lobby of the Hotel. We had several drinks in the hotel bar, and I told DICK I was on my way to Madison, Wisconsin on business for my firm.

"The following morning, I went by bus to Dayton, Ohio, and arrived at Dayton, Ohio, about 10:00 AM. I went immediately to SMILG's home on Oxford St. BEN was still upstairs when I came in and when he came down, I was offered breakfast with BEN. BEN's mother cooked his breakfast, and I accepted a cup of coffee, and possibly a roll, while BEN ate his breakfast.

"BEN and I then went into the living room alone. His mother remained in the kitchen. His father had been there earlier and had left. I cannot \_\_\_\_\_ DAVID SMILG's whereabouts.

"I told SMILG he would recall our last conversation concerning the nature of the relationship between him and STAN, and to bear out what I had said that 'STAN wanted me to show you these,' I pulled the photo copies of the reports out of my inside coat pocket and showed them to BEN. I believe I purposely kept them in my hand, as SAM had instructed me to make sure BEN didn't destroy these papers.

"I then said, 'There are also these' and took the copies of the receipts from my inside coat pocket and showed them to BEN in the same manner.

"BEN barely glanced at the reports and drew a deep gasp at the sight of the receipts. His hand shook as he made a gesture as if to take the receipts and then withdrew his hand. He became obviously angry and in great agitation, burst out as follows.

"You don't know what you've done, you should never have done this.' 'Do you know what I ought to do, I ought to call military intelligence right away.' With this, SMILG made a gesture, as if to step over to the phone, which I think, but am not sure, was in the dining room on a low table.

CIN. 65-1724  
CAB:CMC

"SMILG here said, 'In fact, I was going to do this the very first night you came around here, but I hesitated because you were Jewish and I was Jewish, and I thought it would cause an awful reflection on the Jewish people.'

"I said nothing, and SMILG somewhat regained his composure. He then said 'The receipts are for tutoring, and the reports are school work in aeronautical engineering in which I tutored STAN. They represent things which have been long established in the field and there is not the slightest thing secret about them.'

"I recall that the receipts were handwritten and of actual size in photo reproduction. They were about two inches by three inches. There were at least four such receipts, and were for months in the years 1933, 1934, and 1936, as nearly as I can remember.

"The text ran thus, on all the receipts:

'Received payment for November, 1933' (for example). All were signed at the bottom 'BEN'. All were handwritten, and were for a given month. The amounts were in the range of from \$200.00 to \$400.00, which so impressed me as being sizable amounts of money, that I now \_\_\_\_\_ a very clear recollection of same.

"The reports had been reduced in size in photo reproduction to where they would fit comfortably in a man's pocket. They were not all on the same kind of paper. There were three reports, as nearly as I can recall. Two of them were of about two pages each, and from a previous study of their context, it had been obvious that they had been taken from a report of much greater length.

"These two were typewritten, with a couple of handwritten corrections. The third was handwritten, and represented a complete report of about five or six pages.

"The text of two of them dealt with performance of aircraft. The third dealt with the elements of design of a special type wing, aimed at cutting down wind resistance. There was one graph and a number of small sketches showing stresses and strains, all hand drawn, and included in the special type wing report.

CIN. 65-1724  
CAB:CMC

"Although I have never studied aeronautical engineering, I gained the impression from reviewing these reports in my hotel room at Cincinnati, Ohio, the night before that they related to military, rather than commercial aircraft. I have a very vague recollection that the third report, the only dated report, was dated around 1936 or 1937.

"The full report was not written in the accepted formalized fashion of engineering reports, but was so phrased to highlight the certain salient data, so that if it were read by a layman, its value would easily be recognized, and if it were read by a technical man, the important points would be brought into immediate and sharp focus.

"I recognized the style of this report as being very comparable to the style that I myself had employed in writing my own reports on the results of research and processes of the Pennsylvania Sugar Company, for the use of my Soviet superiors.

"SMILG was now more composed and I said 'I just wanted to show the material to you so that you could think it over. There is a big difference between what STAN said and what you told me.'

"SMILG replied that this was STAN's error and that I had been given bad information. I said that I would be on my way now, but would see him again. I went to shake hands with BEN, who looked stunned at this, and let me stand there holding his motionless hand.

"I went to downtown Dayton, Ohio, by bus and went to what I think was the Miami Hotel, where, in the men's washroom, I followed SAM's explicit instructions and destroyed the photo copies. This was done by using alcohol from a 4 oz. bottle, in my possession for this purpose, and dousing the material and lighting same with a match.

"I almost burned myself, so I finished the job by tearing the unburned remains into small bits and flushed them down the toilet. I had become alarmed at the volume of smoke from the burning. SAM had strongly cautioned me to be ready to destroy the material at a moment's notice at any time during my trip. SAM had insisted I have a bottle of inflammable solvent with me to be ready to carry out the immediate destruction of these papers.

CIN. 65-1724  
CAB:CMC

"SAM had asked me in New York City the day before if I wanted 'two good boys' to go with me when I saw SMILG. I said I could handle SMILG by myself. SAM said I could either have these men right with me or in the immediate neighborhood. He accepted my decision that I didn't need these men with me.

"I had left SAM's house about 10:45 AM and took the bus to Cincinnati, Ohio, and flew back to New York City on the first plane. I met SAM at the Wild's Restaurant, near Grand Central Station, about 11:00 PM that Sunday evening in early February, 1941.

"I told SAM what had happened, and he said 'good, let him rest with it for a little while.' SAM said that SMILG's explanation that the receipts were for money STAN had paid SMILG for tutoring was 'the biggest joke of all, STAN's that good a mathematician, he could have tutored SMILG.'

"STAN said 'We can show him plenty more reports where those came from, and believe me, they are not school work. He'll come across and how he'll come across; he's not going to get away that easy.'

"I met SAM again by prearrangement in March, 1941 on upper Broadway in New York City. We twisted and turned after meeting, met again briefly, twisted and turned again, and got together in a small, out of the way restaurant in the same general area. There SAM told me that things were 'very hot' and he wanted to know if I had noticed being watched at all. Then he said we would have to break off relationship for a while.

"In early July, 1941, after the attack on the Soviet Union, I again met SAM (as the result of a phone call) somewhere around Columbus Circle in New York City, and we talked about redoubling our efforts because of the attack on the Soviet Union by Germany. I asked SAM about SMILG. SAM said we would leave him alone for the time being, although eventually we would get him to work with us. He said that a bad mistake had been made in handling SMILG, and that it was neither of our mistake, but was something that had occurred prior to our activities.

CIN. 65-1724  
CAB:CMC

"I have never seen SMILG again, and his name was never brought up again by any of my associates in Soviet espionage.

"I have previously seen and have identified a photo as the BEN SMILG I have spoken of hereinbefore.

"I have reviewed the foregoing statement, consisting of this and thirty other pages, and wish to make the following additions: on page 7, at the time of my first meeting with SMILG, the greeting that I was to use was a specifically worded one given me by FRED; it was intended so that SMILG would immediately recognize me as STAN's successor in Soviet espionage.

"Also on page 7 I made no request to SMILG that he return the introductory letter; I had received no instructions on this point from FRED.

"On page 15, when I talk of staying overnight at the Hotel Gibbons, at Dayton, Ohio, I further recall another thing that I associate with this event.

"The next morning I bought a current issue of 'Time' magazine in the bus station and read it while going back on the bus to Cincinnati that morning. In this magazine there was a review of a new book written by DOROTHY DIX. I particularly remember this because the reviewer used the phrase 'ashard-boiled as the madam of a sporting house' in discussing Miss DIX's advice to young girls.

"At this same visit, at SMILG's home I arrived about 6:30 P.M. I had to wait the better part of the evening before everyone cleared out and I could get down to business and show the letter from STAN to BEN, after showing him the letter, I left no more than fifteen minutes later. It was then almost midnight on a weekday evening.

"The information I have furnished in this statement is true and I am willing to testify to the same.

Attention is drawn to GOLD's account of his visit to SMILG in January, 1940, which date GOLD fixes by recalling that when GOLD boasted of the glorious Soviet Union, that SMILG scoffed at this, for the Red Army was then bogged down in the Finnish War.

GOLD's recollection of this historical fact was later checked by reference to "The World Almanac, 1941," page 55, under a chronology of World War II, from December 6, 1939 to December 1, 1940, which for January 9, 1940, stated in part, as follows:

"In Finland, the Russians (44th Division) retreated east of the Suomussalmi, after losses. Intense cold (-31 degrees) has stopped land attacks on all fronts."

Dear Mr. Silverthorn:

I have discussed with Mr. Hamilton and Mr. Joseph Gold your request that the F.B.I. have access to Mr. Gold's safe deposit box at P.S.F.S. in order to examine war bonds in the name of Harry Gold which he mentioned to Mr. Hamilton were located there, and also to ascertain the extent of any other papers bearing on the Harry Gold case.

Our express instructions from Harry Gold have been to the effect that we are to extend to the F.B.I. every measure of cooperation. So far as his brother Joseph is concerned, he is perfectly willing to have the box opened in his presence so that his personal belongings and those of his late mother may be segregated and the Harry Gold papers examined.

Mr. Joseph Gold asks that if possible the inspection be made in the late afternoon or evening so he will not be obliged to be absent from his employment. His address is: 6823 Kindred Street, Philadelphia 49, Pa. I trust you will be able to make satisfactory arrangements with him.

If there is any more I can do, please let me know.

Very truly yours,

*Augustus S. Ballard*

Dear Mr. Silverthorn:

For Mr. Hamilton's information I sent him a copy of my letter to you of May 4th. Mr. Hamilton thinks I should supplement that letter by telling you that it is his express recollection that he was told by Harry Gold that the amount of bonds was but a few hundred dollars and that they had been disposed of to meet necessary family expenses.

Mr. Hamilton's thought in having me write was to negative any thought that any substantial amount of bonds might have been taken from the safe deposit box and placed elsewhere.

Very truly yours,

*Augustus S. Ballard*
